

Cambridge Montessori Preschool, is poised to create a learning environment for the tiny tots, which is based on internationally renowned Montessori philosophy propounded by Dr. Maria Montessori. The school develops an excellent Montessori curriculum sourced and researched from across the globe and delivered with the help of operational centers in Asia. Cambridge Montessori Pre School focus on the pivotal early grade for children from 12 months to 6 years.

The school provides the academically challenging curriculum with flexibility to meet the needs of individual children in these critical early years. The focus on teaching children in unique manner with the help of Montessori material establish strong foundation in reading, composition, mathematical skills and encourages individual creative expression and thus kids become independent learners at an early age of 3.5 years.

It helps them instill independent learning, creative thinking, and excellent communication skills and further arm them to succeed in tomorrow's world. Cognitive approach in

a progressive way with the help of Montessori teaching materials thus enhancing gross motor skills, sensory development, hand eye coordination and adaptation to the changing environment in their sensitive period of conscious as well as sub conscious phase of their absorbent mind.

At Cambridge Montessori Pre School, children have the freedom to choose their own activities. Children become enthusiastic learners and develop self- discipline. The Cambridge Montessori Pre School environment is a nurturing place for children. It is designed to meet the child's need for self- construction. The environment is responsive to the ever changing needs of the growing child. They become expressive through art/ craft and drama. The child's self- esteem is central to our education.

At Cambridge Montessori Pre School we believe in providing an all-round learning environment which will help the child to develop physically, cognitively, socially and emotionally.

The most important period of life is not the age of university studies, but the first one, the period from birth to the age of six."

-Dr. Maria Montessori

The Montessori curriculum is designed to ensure development at child's own pace. The child is given opportunity to become independent. It also makes them responsible. It revolves around overall development of child by using various methods/ presentation in the field of Elements of practical life, sensorial, mathematics, language and culture. With the help of Montessori approach, children are encouraged to collaborate to help each other. They set own learning pace to internalize information and use as per the environment.

CAMBRIDGE MONTESSORI

(UNDER THE AEGIS OF JALSA VENTURES)

PRE SCHOOL | DAY CARE | MindLab

**GIVING WINGS TO YOUR
CHILD'S IMAGINATION**

Children are the beautiful gift of the God.
At Cambridge Montessori Pre School, our trained teachers work on these bundles of joy and give them motherly love and compassion. Their early years are very crucial in transforming them into full grown individual full of confidence and conviction. Our philosophy and nurturing environment works as a catalyst and parents see their child growing each passing day.

DAY CARE

A truly International standard day care center to cater the need of working couples. State of the art facility to take care of little ones supported by well- trained staffs and helps.

TTP

Cambridge Montessori Teacher Training Institute is one of the unique place where Dr. Maria Montessori concept of early childhood training is given with utmost sincerity. Entire program is structured keeping the child's development in mind. Various experts from India and globally have contributed in creating this world class program.

MONTESSORI LAB

A properly laid down lab consisting of all the tools required to develop a child as an individual. Scientific way of learning by doing is a major catalyst in children learning quotient.

MIND LAB

Mind Lab is an innovative workshop to instigate young mind and work on grey matter in scientific manner. Helps development of thinking abilities and life skills through strategy games and study materials.

FUN ZONE

Games and fun comes first to the children hence an excellent arena carved out for outdoor and indoor play equipment for child's emotional, physical endurance

SECURITY

Safety, security and hygiene standards are prime focus and a surveillance on school is monitored using technology

OUR PROGRAMMES

Little Hearts (1-2 Years Toddler)

The toddlers program at Cambridge Montessori Pre School advances each child's growth and development. At Montessori classroom, kids are engaged in great cognitive, emotional and social development. Physical and motor skills, sensory and cognitive development, understand simple commands, imitates animal sounds etc...

Tender Hearts (2-3 Years Playgroup)

We work on gross and motor skills, hand eye coordination, grasping power, settling them by reciting poems and stories, holding crayons, potty training. With the help of Montessori tools and presentations, they start imbibing problems solving skills in a happy and conducive environment.

Nursery (3-4 Years)

Teaching math, english and EVS and understanding age specific concepts in Montessori labs ensures their analytical abilities, probing techniques, personality and individuality is at par with the global Montessori students. Reading, writing and speaking becomes easy for kids with the help of our advance curriculum.

LKG (4-5 Years)

LKG focuses on the overall development of the child as it prepares them for extempore. Making math, english, hindi and EVS easy for kids and making them learn it fun way. Preparing kids for formal schools by focusing on the overall personality development of children is the objective.

UKG (5-6 Years)

Our approach by virtue of involving students in to Montessori Lab is to get them ahead of the competition and make them ready for different subjects at their level like fun and formal school ready. Our trained teachers let our students bloom and prepare them for future.
